

# UX Design Storyboard

Scenario: one big picture storyboard

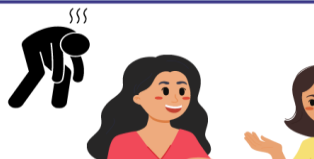

## USING AN EXISTING APP TO SUPPORT A FRIEND

01

tim lives alone. He is suffering from depression having just lost his job. He feels hopeless and alone.

02

tim's friend anna has noticed that something is wrong with tim, but she's not sure how to reach out to him.

03

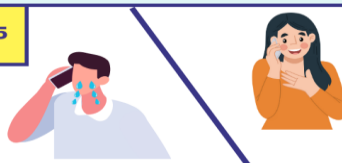

anna downloads the heartline app on her phone, and adds some of tim's other friends to check up on him.

04

periodically the app will remind anna and others to check up on tim.

05

anna checks in with tim and lets him know how much she cares about him. tim begins to feel less disconnected and alone.

06

periodically, as tim's friends are reminded they check up on him, and tim is reminded of his support system.
